

Anser Charter School

*An Expeditionary Learning School*

Name \_\_\_\_\_

April, 2014

Dear ANSER Student,

During the early part of the school year you defined your character goals. Mid-year you set your academic goals and completed a follow-up reflection on how you were meeting your character goals. Now that the school year is coming to a close, we want to know if you were able to fully accomplish the goals you set for yourself. Please complete this End of the Year Goal Reflection form. We want to celebrate your hard work and accomplishments at an end of the year Goal Achievement Ceremony to be held at Whole School Community on May 21. In order to issue your certificate, the completed reflection form *must* be returned to school on or before May 13. Kindergarten students, please reflect on the goal you set during your December Student-Led Conference.

(Younger students may dictate and have parents write for them)

1. Please state your academic goal. I can work on my writing skills including capitalization and punctuation and developing my thoughts more completely.
- Did you meet your goal? yes Write or dictate a reflection on achieving or not achieving your goal. Refer to the *design principles of Success and Failure and Responsibility for Learning* in your reflection.

I feel like I have become a better writer and people better understand my writing. I am using more punctuation and capitalization in my writing.

Your character goal reflection is on the back of this form.
